

Sumedh Bajracharya

Senior Software Engineer – Frontend & Full-Stack

+977 9860104311 | sumedhbajracharya07@gmail.com | sumedhbajracharya.com.np | linkedin.com/in/sumedh-bajracharya | Lalitpur, Nepal

PROFESSIONAL SUMMARY

Senior Software Engineer with 4.5+ years of experience architecting AI-powered healthcare solutions and enterprise applications using Agile/Scrum methodologies. Led 15+ production deployments for healthcare organisations, implementing HIPAA-compliant systems with 99.9% uptime. Expert in modern JavaScript ecosystems (React, Next.js, Vue.js, TypeScript) with a proven track record in performance optimisation, microservices architecture, and cloud infrastructure (AWS, Azure). Experienced with testing frameworks (Jest, Cypress), bundlers (Vite, Webpack), and CI/CD automation (GitHub Actions, Harness). Passionate about AI-assisted development workflows and bridging design-engineering gaps.

PROFESSIONAL EXPERIENCE

Senior Software Engineer II

Jan 2024 – Present

GritFeat Solutions, Lalitpur, Nepal

- Lead frontend architecture for enterprise healthcare applications using React and Next.js, ensuring 99.9% uptime.
- Engineered chunk-based AI chat streaming with Vite build optimisations, improving response times by 60% and reducing token costs by 40%.
- Architected HIPAA-compliant systems using AWS Cognito, OAuth/JWT, encryption protocols, and microservices.
- Established company-wide RESTful API and GraphQL design standards across all product teams.
- Defined Agile/Scrum sprint processes and conducted 50+ technical interviews to grow the engineering team.

Senior Software Engineer I

Jan 2023 – Dec 2023

GritFeat Solutions, Lalitpur, Nepal

- Managed cloud infrastructure across AWS (S3, EC2, Lambda, CloudFront) and Azure (Container Apps, ACR).
- Automated CI/CD pipelines using GitHub Actions and Harness, reducing deployment time by 30%.
- Implemented monitoring and alerting via Sentry and CloudWatch; led monthly on-call rotations.
- Mentored junior engineers and enforced Agile best practices across a cross-functional team.

Software Engineer — Associate through III (progressive promotion)

Jun 2020 – Dec 2022

GritFeat Solutions, Lalitpur, Nepal

- Translated stakeholder requirements into high-fidelity Figma prototypes and PowerBI dashboards; collaborated with PMs across Agile sprints.
- Delivered pixel-perfect UI/UX implementations achieving 95%+ stakeholder satisfaction.
- Reduced initial load times by 50% through advanced refactoring, code splitting, and caching strategies.
- Reduced API call volume by 70% through React Query caching and request deduplication.
- Designed comprehensive design systems and reusable component libraries (Storybook), cutting development time by 25%.
- Optimised application bundle sizes by 40% using Webpack/Vite tree-shaking and lazy loading.
- Introduced Jest and Cypress test suites, raising code coverage to 80%+ on core modules.

UX & Full-Stack Intern

Jan 2020 – May 2020

ITGlance Pvt. Ltd., Lalitpur, Nepal

- Contributed to full-stack development using JavaScript and Java for manual record digitisation.

SELECTED PROJECTS

Healthcare AI App Builder

Lead Architect · React, ReactFlow, Next.js, Metamodel API, AWS

- No-code healthcare application builder using ReactFlow for canvas-based UX and Metamodel API for dynamic rendering. Delivered 10× faster app creation for enterprise clients.

Fertility Bot — HIPAA-Compliant AI Chatbot

Backend Architect · Node.js, Nest.js, PostgreSQL, OpenAI API, AWS Cognito, OAuth/JWT

- Optimised LLM context window by 65% via conversation history summarisation, achieving 40% reduction in operational costs while maintaining full HIPAA compliance.

Team Collaboration Platform

Full-Stack Engineer · React, TypeScript, Socket.io, Redis, PostgreSQL, Docker

- Real-time collaboration tool with Socket.io messaging and OKR tracking, improving team productivity by 35%.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, Vue.js, TailwindCSS, React Query, ReactFlow, Redux, Vite, Webpack
Backend	Node.js, Nest.js, PostgreSQL, MongoDB, Redis, GraphQL, REST API, Microservices
Testing	Jest, Cypress, Vitest, React Testing Library
Cloud	AWS (S3, EC2, Lambda, Cognito, CloudFront), Azure (ACR, Container Apps, DevOps)
DevOps/CI-CD	Docker, Kubernetes, GitHub Actions, Harness
Auth/Security	OAuth, JWT, HIPAA compliance, AWS Cognito, Encryption protocols
AI/LLM	Cursor, Claude Code, LLM API Integration, Token Optimisation, Intent Recognition
Design	Figma (Expert), Adobe XD, Storybook, Design Systems, Usability Testing
Methodologies	Agile, Scrum, Code Review, Technical Mentorship

EDUCATION

Bachelor of Information Management (BIM)	2016 – 2021
Tribhuvan University — NCCS, Kathmandu	
Master of Information Technology (MIT) — Expected Dec 2026	2023 – Present
KLUST, Kuala Lumpur	

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Developer – Associate (in progress, expected Q3 2026).
- Served 10,000+ monthly active healthcare users with zero HIPAA breach incidents across all deployments.
- Top performer recognition at GritFeat Solutions for three consecutive years (2022–2024).
- Internal tech guild speaker on AI-assisted engineering workflows.
